

Product Parameters

AC EV Charger station parameter table

Product number		MXKYACP07
Detailed specifications	Rated power	7kW
Structure appearance	Installation method	Wall-mounted
	Wiring method	Down line
	Equipment size	150mm*150mm*65mm
	Equipment weight	2Kg
	Cable length	3.5m
Electrical indicators	Input voltage	AC220V±20%
	Input frequency	50±10Hz
	Rated power	7kW
	Output voltage	AC220V±20%
	Output current	32A
	Current limit protection value	≥110%
Feature design	Charging mode	Plug and charge
	Executive standard	EN61851、EN61000
Environmental indicators	Operating temperature	-25℃~+50℃
	Working humidity	5%~95% non-condensing frost
	Working altitude	<2000m
	Protection level	IP54
	cooling method	Natural air cooling
	Noise control	≤40dB
	MTBF	30,000 hours
